

Huntley Subordinate Sewer District Meeting Minutes

October 30, 2007

At the Winnebago Community Center

Present: Richard Mair, Darold Nienhaus, John Thompson, Bruce Blakesley, John Thompson, Kevin Bittner, Chad Viland, Michele Stindtman.

Board Member By-Laws – The by-laws were reviewed and discussion was held. After some slight modifications, there was a recommendation made to forward to the County Commissioners for approval at their next regular meeting.

Project Update was given.

Much discussion was held on the timeline of the project. The group felt that the project was not moving along as well as had hoped.

Agreement was reviewed and discussed. It was felt that there were maybe some additional changes that needed to be addressed. The county will re-look at these after review from legal council for the city and the county.

It was noted that a newsletter went out to all of the residents in October. The focus of the newsletter was to update the residents on the project, and to again let them know about financing opportunities.

Sewer Ordinance – A draft of the Sewer Ordinance was presented. The group spent time going through each section of the ordinance and made comments and suggested changes. Most of the time was spent making sure that the process that the county was using during construction would be covered, and that new connections in the future would be covered. Recommendation was made to send the ordinance to the county for review and approval.

It was decided that the next meeting of the group should be in early January, 2008.
